**MUDANGANYI TRADING ENTERPRISE (ta B&T Electrical)** is a professional company that specializes in electrical power engineering and maintenance. The company is comprised of four integrated departments: a sales department to ensure proper products selection, an electrical engineering department to provide the most effective engineering solutions, an installation crew to complete all installations in a professional and timely manner. Maintenance department to ensure the continuous operations of our customer's equipment and critical loads. This comprehensive engineering coverage enables our engineers to provide the most thorough and effective service to our customers in order to stay ahead of the technological advancement.

Our company has invested in maintaining highly experienced and educated engineers.
